

# Entour ICE

Code: 1411100032

The Entour ICE is a tour-grade low-lying fog machine that creates a thick cloud of smoke that stays close to the floor when used with dry ice. It comes in a road case with casters and features DMX and other on-board controls, a motorized dry ice basket that drops into the water and a low water level sensor that automatically shuts off the pump.

The Entour ICE is ideal for stages, theaters, churches, nightclubs, concert venues and event productions.

## Features:

- Professional low-lying fog machine with road case and heavy-duty casters
- Locking tank with motorized dry ice basket system Dry Ice Basket Capacity: 26.5 lbs. | 12 kg.
- Massive fog output of 550 Sq M / 5920 Sq ft.
- 4-section electronic temperature control system
- Average run time: 5 minutes, initial heat time: 90 min @ 120V/ 45 min @ 230V
- Requires dry ice and water, Water Tank Capacity: 8.5 gal. | 32 Liters
- Water Level Sensor: pump automatically turns off when water is too low
- Dry ice consumption: 12 kg/ 3.5 min
- On-board LED display with 6 button control
- Water drain valve: recessed for protection located lower-front of case
- 10-hour holding time of cooler box
- 3 Operating Modes: built-in timer, manual or DMX control
- 3 DMX Channel Modes: 1 Ch, 2 Ch, or 6 Ch
- DMX Input/Output: 3- pin & 5-pin
- Power Inputs: 2x Locking Power
- Power Voltage: 120V~230VAC / 50/60Hz (non-switchable)
- Dual Element Heating System: 2x 1450 Watts @ 120V/ 2x 3000 Watts @230V
- Power Consumption: (full) 3000 Watts @120V/ 6100 Watts @ 230V

## Dimensions:

- Dimensions with case+wheels: 21.38"x18.11"x24.9" | 546x463x632 mm
- Dimensions w/o case: 21.5"x18.25"x24.25" | 543x460x617 mm
- Weight: (with wheels no case cover): 72.8 lbs. | 33 kg.
- Weight: (with case cover + wheels): 93.7 lbs. | 42.5 kg
