

The MPLT32-G is a 2-way 100 Volts high quality music projector. It has a long throw output performance that brings quality sound over long distances and in wide areas.

Thanks to the well-considered coverage range, high sensitivity, high output, low distortion and extended frequency response, this horn loaded 2-way model is an ideal loudspeaker for voice, music or even alarm signals. It can be used in outdoor applications such as recreational facilities, schools, parking facilities, as well as large indoor applications such as sports centers, airports, exhibition halls...

The cabinet of the MPLT-32 is made of high-impact ABS. It makes the speaker fully weatherproof according to IEC IP-66 standards. The strong aluminum bracket is your guarantee against corrosion !

The standard color is grey. From 12 pieces upward, the speaker can be supplied optionally in any RAL color (Ref: PAINTMPLT).

TECHNICAL SPECIFICATIONS

Type:	Two way exponential horn, long throw
Woofer:	6.5 inch cone type
Tweeter:	1-inch horn driver
Standard color:	grey
Rated power handling RMS:	32 W / 100 volt
Transformer power taps:	32 - 16 - 8 - 4 W
Impedance 100 volt:	312.5 - 625 - 1250 - 2500 ohm
SPL 1W/1m:	106 dB
Max SPL	120 dB
Frequency range:	75 - 18 kHz
Dispersion @ 1 kHz (H x V):	110° x 80°
IP Rating:	66
Operating temperature range:	-20/55°C
Dimensions without bracket (mm) H x W x L:	250 x 360 x 290
Bracket W x D (mm):	285 x 210
Weight including bracket:	4.90 Kg
Mounting holes:	3 x Ø 10 mm, 60 mm spacing
