Install Solutions

DAP Install Solutions

With the audio products from our extensive DAP range, every installer always has a good audio solution at his or her disposal. Choose from passive or active Pure loudspeakers, Xi and EVO loudspeakers for fixed installations, or explore the different possibilities offered by DAP mixers or audio processors.

In this 'Install Solutions' series we show you the possibilities for cafes, fitness centres, churches, boardrooms, playgrounds, offices and much more.

Restaurant

In this configuration example a three-zone solution is suggested: the restaurant, the toilet group, and the kitchen. The IMIX-7.3 can control all three zones individually, while the four-channel Qi-4600 provides more than enough channels and ample power. The IR-150BT Media Player provides the necessary music, playing from several sources.

Audio Source

1

IR-150BT Media Player

1U mixer with Wi-Fi radio (DAB+) and wireless audio (Bluetooth connection)

- 1U 19" media player
- Supports DAB+, FM radio, AUX in/out and Bluetooth 4.2
- Suitable for fitness centres, shops et cetera
- 2.4" TFT display
- 3.5 mm jack and 4x RCA input
- XLR microphone input (no phantom power)
- IR remote included

D1247

Main Outputs:	1	FM Freq. End:	108 MHz
Supported Audio Files:	AAC/AAC+ / FLAC / MP3	DAB+ Freq. Start:	174.928 Mhz
THD Level:	< 0.1%	DAB+ Freq. End:	239.2 Mhz
Signal-to-noise Ratio:	> 70 dB	Power Supply:	220V-240 VAC 50 Hz

Auditorium

A pair of decent loudspeakers (Xi-10) provide sound to the front audience, while ceiling loudspeakers (DCS-6230-16 and DCS-8240-16) cover the rear audience. Because of their high impedance of 16 ohms, the DCS's

offer flexible configuration options of series/parallel connections, so more loudspeakers can be connected to a single amplifier channel without overloading it. The powerful 4x 500-watt CA-4500 DSP amplifier is perfectly suited for this application.

Boardroom

The PM-160 has a talk button, so that it only passes sound when activated, muting unwanted noises when someone has the floor. The two-way DCS-6230BC ceiling loudspeakers provide a crisp and intelligible sound.

Churches

Churches often are quite reverberant, therefore the DAP SCS series column loudspeakers offer the best solution. They act like a line source, eliminating much of the vertical off-axis sound, thus minimising reverberant sound. Their slim design fits well in this application. The DCP-26 MKII is used to time-align all loudspeakers to achieve the best speech intelligibility.

HS-15S

Passive Square Horn Speaker 100 V

- 15 W / 70 + 100 V horn speaker
- Square horn
- Suitable for outdoor use (IP66)
- Light grey
- Bracket included

D6541

Peak Input Power: 15 W
 Transformer: 70+100 V
 Line Transformer Taps: 1.9 / 3.75 / 7.5 / 15 W
 Passive
 Input Connection: Open End
 Speaker System: Horn
 Speaker
 Sensitivity (1 W/1 m): 105 dB

Speaker Impedance: 8 Ω
 Freq. Resp. Min.: 300 Hz
 Freq. Resp. Max.: 8000 Hz
 Height (mm): 232 mm
 Width (mm): 162 mm
 Length (mm): 222 mm
 Weight: 1.4 kg
 IP Rating: IP66

2

HS-510P

5" Passive Hanging Speaker 100 V

- 10 W / 100 V ceiling speaker
- 5" woofer
- Wide 130° dispersion angle
- Protected against dust ingress (IP55)

D6568

Peak Input Power: 10 W
 Transformer: 100 V
 Line Transformer Taps: 2.5 / 5 / 10 W
 Passive
 Input Connection: Open End
 Speaker System: Coaxial
 Speaker
 Sensitivity (1 W/1 m): 91 dB
 Freq. Resp. Min.: 130 Hz

Freq. Resp. Max.: 15000 Hz
 Woofer Ø: 5"
 Dispersion Angle Hor.: 130°
 Height (mm): 200 mm
 Width (mm): 130 mm
 Length (mm): 130 mm
 Weight: 1.5 kg
 IP Rating: IP55

3

DCS-4220

4" Passive Ceiling Speaker 100 V

- Recessed installation
- 2-way speaker system
- Magnetic grill assembly
- Ultra-thin border

D6578

Peak Input Power: 20 W
 Transformer: 100 V
 Line Transformer Taps: 5 / 10 / 20 W
 Passive
 Input Connection: Open End
 Speaker System: 2-way
 Speaker
 Sensitivity (1 W/1 m): 88 dB
 Speaker Impedance: 8 Ω
 Freq. Resp. Min.: 110 Hz

Freq. Resp. Max.: 20000 Hz
 Woofer Ø: 4"
 Compression Driver Ø: 0.5"
 Dispersion Angle Hor.: 130°
 Height (mm): 80 mm
 Width (mm): 183 mm
 Length (mm): 183 mm
 Weight: 1 kg
 IP Rating: IP40
 Mounting Size: Ø 160 mm

SUPERMARKET

Soccer club canteen

In this configuration example a 100-volt PA system is combined with a conventional audio setup. The IMIX-5.3 offers three balanced outputs with independent volume controls. The three zones are divided between the canteen, which is supplied with sound by

the HP-1500 or HP-2100 and XI-8 speakers, an outdoor/field system with four horn loudspeakers, powered by a PA-500, and a dressing room system with ceiling speakers, powered by a PA-250.

Mix & Control

 IP Rating: IP20
 (indoor use only)

Small shop

For small PA setups the PA530TU is a cost-effective solution with all necessary functions. The amplifier has a built-in tuner and USB player, and enough power for small areas. A front line/phone input jack makes it possible

to connect a mobile device and listen to your favourite music. The EVO loudspeakers offer a stylish solution, while the DCS-5230 can be mounted almost invisibly into the ceiling.

Pub & club

In this configuration the IMIX-7.2 offers a great two-zone solution because it is a full-feature mixer designed for non-technical users. The display below each channel shows which source it is controlling, so staff can easily

adjust sound levels for the pub and club area independently. The mixer has two built-in audio USB interfaces to connect PC music systems without the need for external equipment.

Retail shop

In this configuration a large sound system is applied to create a club atmosphere. The Compact 9.2 mixer is a two-zone mixer designed with controls similar to home audio systems. The user can choose two separate audio sources and control them with

independent volume controls. The built-in displays show the active sources. The two-zone capabilities make it possible to set different sound levels for the front and back of the shop.

School

In this 100-volt configuration example, many different 100-volt loudspeaker designs are suggested, offering a clear overview of which loudspeaker type can be applicable

in the different areas. The ZA-9250TU is suggested because of its quantity of zones and its powerful internal amplifier, capable of powering all loudspeakers in this setup.

Shopping center

In this configuration a 100-volt system, a stylish design, and a decent sound quality come together. The DAP PSU-510P projects the sound where it is needed, while the EVO 4T is best used where a wider sound

dispersion is needed. The system is based around the 7-channel IMIX-7.1 mixer and the PA-500 100-volt amplifier and complemented by the IR-150BT Media Player and the PM-160 Announcement Microphone with Chime.

- 2.4" TFT display
- 3.5 mm jack and 4x RCA input
- XLR microphone input (no phantom power)
- IR remote included

D1247

Main Outputs:	1	FM Freq. End:	108 MHz
Supported Audio Files:	AAC/AAC+ / FLAC / MP3	DAB+ Freq. Start:	174.928 Mhz
THD Level:	< 0.1%	DAB+ Freq. End:	239.2 MHz
Signal-to-noise Ratio:	> 70 dB	Power Supply:	220V-240 VAC 50 Hz
Carrier Freq.:	2.4 GHz	Power Consumption:	4.6 W
Bluetooth Version:	4.2	Height (mm):	44.5 mm
Bluetooth Range:	20 m	Width (mm):	483 mm
FM Freq. Start:	87 MHz	Length (mm):	270 mm
		Rack Units:	1 U

2

PM-160

Announcement Microphone with Chime

- Mic volume adjustable on backside
- Chime volume adjustable on backside
- Talk button on top
- Built-in four-tone Chime

D6191

Main Outputs:	1	Freq. Resp. Max.:	23000 Hz
Main Output Connector:	3-pin XLR / TRS unbalanced 6.3 mm	Power Connector in:	Low Voltage DC plug
Microphone Type:	Condenser	Height (mm):	132 mm
Microphone Sensitivity:	230 mV	Width (mm):	155 mm
Freq. Resp. Min.:	22 Hz	Length (mm):	380 mm
		Chime:	Yes

Mix & Control

1

IMIX-7.1

7-Channel 2U Install Mixer, 3 Outputs

- Gain settings at backside
- Special front input for phone/MP3 devices
- 2 Mic, 11 Line inputs

D2350

Mono Inputs:	2	Parametric Microphone Equalizer:	3 Bands
Stereo Inputs:	10	Parametric Main Equalizer:	3 Bands
Phono Audio Inputs:	2	Power Supply:	240 VAC 50-60 Hz
Auxiliary Inputs:	1	Power Consumption:	16.5 W
Main Outputs:	3	Height (mm):	88 mm
Headphone Output:	1	Width (mm):	95 mm
Record Output:	1	Length (mm):	481 mm
THD Level:	< 0.05 %		
Freq. Resp. Min.:	20 Hz		
Freq. Resp. Max.:	20000 Hz		

Amplifiers

1

PA-500

500 W 100 V Amp

- 500 W
- Loop through connection
- RCA, XLR, Terminal input
- 24 V Back up power input

D6161

RMS Output		Phantom Power:	No
Power Amplifier:	500 W	Power Supply:	240 VAC 50-60 Hz
Output Channels:	1	Backup Power Supply:	24 VDC
Output Mode:	Parallel	Power Consumption:	1050 W
Output Connector:	Terminal	Power Connector in:	IEC
Main Outputs:	2	Height (mm):	483 mm
Main Output Connector:	RCA	Width (mm):	88 mm
Mono Inputs:	2	Length (mm):	326 mm
Mono Input Connector:	3-pin XLR / Terminal	Rack Units:	2 U
Stereo Inputs:	1	Weight:	16.4 kg
Stereo Input Connector:	RCA	Electronic Protection:	Overload / Short circuit
Transformer:	100 V

PSU-510P

5" Passive Unidirectional 100 V Projector Speaker

- 10 W / 100 V unidirectional projection speaker
- 5" woofer
- Protected against dust ingress (IP55)

D6550

Peak Input Power: 10 W
 Transformer: 100 V
 Line Transformer Taps: 2.5 / 5 / 10 W
 Passive
 Input Connection: Open End
 Speaker System: Coaxial
 Speaker
 Sensitivity (1 W/1 m): 91 dB
 Speaker Impedance: 8 Ω

Max. SPL at 1 m: 100 dB
 Freq. Resp. Min.: 130 Hz
 Freq. Resp. Max.: 15000 Hz
 Woofer Ø: 5"
 Height (mm): 117 mm
 Width (mm): 138 mm
 Length (mm): 205 mm
 Weight: 1.4 kg
 IP Rating: IP55

2

EVO 4T

Passive 4" 100 V speaker set

- Full-range 2-way audio set for excellent Hi-Fi quality
- 70/100 V with 4 power taps
- 40 W RMS, max SPL: 110 dB @ 1 m each
- IP54 Rated
- Multi angled brackets (tiltable to up to 60 degrees)
- Quick and easy installation in either horizontal or vertical position
- Elegant ABS design available in black and white

D3680

D3681

RMS Input Power: 40 W
 Peak Input Power: 80 W
 Transformer: 70+100 V
 Line Transformer Taps: 2 / 4 / 8 / 16 W
 Passive
 Input Connection: Terminal
 Speaker System: 2-way
 Speaker
 Sensitivity (1 W/1 m): 88 dB
 Speaker Impedance: 8 Ω
 Freq. Resp. Min.: 100 Hz
 Freq. Resp. Max.: 20000 Hz

Woofer Ø: 4"
 Compression Driver Ø: 1"
 Dispersion Angle Hor.: 110°
 Dispersion Angle Vert.: 90°
 Height (mm): 195 mm
 Width (mm): 127 mm
 Length (mm): 115 mm
 Installation
 Depth (excl. connector): 157 mm
 Weight: 1.8 kg
 IP Rating: IP54

SHOPPING CENTER

SPORTS CENTER & CANTEEN

In this 100-volt configuration example a setup with four zones is applied. The sports area, the cafeteria, the kitchen, and the dressing rooms with passages. The ZPA-9250VTU is applied, because it can power all used speakers by itself and is equipped with built-in

volume controls. The user can adjust volume levels for all areas directly on the amplifier. The built-in USB player with tuner makes it an all-in-one solution, where no other devices are necessary.
