

Product Detail Page

FGA-102

Number: 25.1650

Professional stereo line transformer,

for reducing signal interference and hum loops which may occur, e.g. when connecting PC sound cards to hi-fi systems or mixers.

- Galvanically isolated inputs and outputs
- Gold-plated RCA connections (600 Ω)
- Frequency range: 20-20,000Hz
- Robust metal housing with very good shielding qualities, suitable for stage applications
- Dimensions: 125x55x75mm
- Weight: 650g

SOUNDCHECK 07/2007

on the FGA-102, FGA-202, LC-31, MC-31 and LSP-102: "Every musician or sound engineer should have these little helpers in their toolbox. They impress by their unobtrusiveness. Both the robust metal housing and the functionality of these transformers allow to solve many problems on stage or in the studio at a reasonable price." **tools4music 06/2009**

on LSP-102, LC-31, FGA-102, FGA-202, DIB-102

"Recommendable and fit for on-the-road applications. A little audio aid available at a favourable price, perfect for the "ever accompanying" tool case."
