1-to-1 Video Conferencing

Stand-up Video Conferencing

The Vivolink VLCAM75 video conference camera provides a high-quality video with Full HD 1080p/30fps for a personal video conference experience. In addition, the 80° wide field-of-view angle and outstanding image quality in low-light provides an excellent visual collaboration experience. Thanks to its two built-in omni-directional microphones, it can capture crystal-clear voice up to a distance of 3.6 meters. The USB plug-and-play connectivity and tripod-ready universal clips make it effortless to enrich the online meeting experience.

Dual microphones

Quick mount

Key Features

- Full HD 1080p premium video quality
- 80° wide field-of-view angle can capture people with ease
- Dual microphones capture voice from every angle
- Quick and easy USB connecting
- Compatible with Zoom, Skype, Microsoft Teams, Google Meet, etc.

Compatible with

VLCAM100 Ultra-HD ePTZ

USB 3.0 Plug & Play

The VLCAM100 uses standard UVC drivers. There is no need to install special USB drivers. USB 3.0 is 10 times faster than the USB 2.0 standard and it features low latency and non-compress output.

Ultra-View Angle

The VLCAM100 has a panoramic ultra-wide 120° viewing angle that helps users achieve a wider viewing area.

Excellent 4K Image

The VLCAM100 has a professional 8.28 megapixel image sensor that features high resolution, and Vivid color reproduction and presents an excellent image quality even under insufficient light conditions.

With Auto Framing

The VLCAM100 auto framing can auto zoom on people when enter or leave people during the video conferencing

Easy control

The VLCAM100 easy control like Pan, Tilt, Zoom and settings by IR remote controller. Supports Windows, Mac OS, Android system.

255 Preset Positions

The VLCAM100 has 255 presets settings via USB, and 10 preset via remote control for pan, tilt, zoom, focus, and white balance modes for more effective and efficient video recording.

I/O Connections

BACK

USB 3.0

FRONT

L: 222mm

The Vivolink VLCAM100 is a high-definition ePTZ camera specifically designed for small meetings, classrooms and distance learning. It supports USB 3.0 and is plug-and-play with just one USB cable. Thanks to its built-in TV mount, it is easy to install on the TV or on the screen. With the 120° wide viewing angle and 4 time magnification, attendees appear clear. In addition, it has a built-in microphone and is an excellent choice and best suited for distance learning or video conferencing.

VLCAM200 Conference Kit

CAMERA

Simply Plug and Play

The VLCAM200 is incredibly easy to use- simply plug its USB connector into a desktop or laptop and you're ready to go! With no need for device drivers, the VLCAM200 is able to provide top-quality conferencing at a moment's notice, on nearly any computer.

Up to 10 Camera Presets

With the VLCAM200 there's no need to waste time panning and zooming manually during meetings - simply program its presets ahead of time, and then during the meeting you can shift the camera from a wide view of the room to a close-up of an object with just the press a button. With not just 1, but 10 of these presets available, you can prepare yourself for nearly any situation in any environment.

The Vivolink VLCAM200 Conference Camera is an indispensable video collaboration tool for businesses that use web- or cloud-based conferencing. Suitable for meeting rooms of all sizes, from huddle rooms all the way up to large conference rooms, the VLCAM200 boasts a powerful pan-tilt-zoom camera and an advanced speakerphone, providing delicate, detailed images and vivid sound quality that more than meet the needs of most businesses. Especially well-suited for laptops, the VLCAM200's plug-and-play design puts high-quality video communication just a USB connection away.

Powerful 10X Optical Zoom PTZ Camera

Boasting pan-tilt-zoom (PTZ) and 10X optical zoom, the VLCAM200 will meet your video collaboration needs in conference rooms large or small alike, regardless of whether you want detailed views of small objects or wide views of all participants. Moreover, its quick auto-focus, fast lens, subtle pan/tilt grading and wide angle ensure an unbeatably smooth and lifelike conferencing experience.

Full HD 1080p Output Resolution

Full HD 1080p has never felt more lifelike! Even in poor lighting you can enjoy detailed, crystal-clear views of people and objects at the far site, and motion blur is nonexistent. With quality like this, you'll forget that everyone isn't even in the same room.
