Sturdy solution
for routing cables

BASIC CABLE GUIDE

Our Basic cable guide is a sturdy and reliable cable management solution for a clean-looking, solid suspension system. With a width of 110 mm the Basic Cable guide is perfect in installations where many cables need to be routed through. The bends make it possible to route cables including their connectors.

KEY FEATURES

Durable

The solid, sturdy design and the 2mm steel length profiles ensure long-term usage.

Wide gutters

The Basic cable guide has a wide gutter capable of accommodating many cables.

Heavy-duty hinges

The hinge points are fitted with ball bearings in order to limit wear to a minimum and provide a lifetime of use.
