

CIRCLE FLAMER X-F3600 SPECIFICATIONS

CIRCLE FLAMER X-F3600, is a never seen flamer effects originally introduced by SHOWVEN. It is the first machine in the world with circle flame effects. DMX signal control, full cycle and half cycle mode switchable, 1080° (3 cycles) rotation nozzle with up to 182 preset firing sequences ensure the versatile use in various professional shows. It is easier and stable to program CIRCLE FLAMER when combined with SHOWVEN original host controller

Features

- Original innovation introduced by SHOWVEN
- Never seen flame effects up to 3 rotation cycles
- Full cycle and half cycle mode switchable
- Up to 182 preset firing sequences
- Nozzle front design, safer for operator
- Stainless steel nozzle, reliable and durable
- Safety lock with switchable test mode
- Double electromagnetic valves design for additional safety
- Double pump ensure stable pressure
- Fitted with igniter signal interface, compatible with fireworks firing system
- Neutrik powerCON TRUE1 in/out, Neutrik 3-pin & 5-pin DMX in/out
- Easy effects control with SHOWVEN host controller
- Stainless steel panel

Specifications

Items	X-F3600
Rotate angle	1080° (3 cycles)
Mode Switch	Full cycle/Half cycle mode
Preset sequence	182
Flame height	Up to 8-10m (no wind)
Power	380W
Voltage	100-240V, 50-60Hz
Fuel	ISOPAR-G,H,L,M ISOPROPANOL BioEthanol
Fuel bottle capacity	10L
Fuel Consumption	60ml/s
Dimension / Net weight	640*360*370mm, 30kg
