This user manual apply to: Syco PPOC-4010

ACCESSORIES

Antenna

Belt clip

Lanyard

Charging Cable

Power supplier

Charger

Li-ion battery

FIRST USE

To prevent damage and to comply with the warranty, be sure to charge the battery with a original charger. Put the radio or battery into the charging stand to charge.

Charger indicator status:

Indicator display	Current state of charge
Red light	Charging
Green light	End of charging

USB charging: This charging method can only be charged when the power is turned on. Note: If the battery is exhausted(cannot be turned on), it will not be charged.

Installing/removing battery: Press the battery bump on the aluminium housing card slot and press the battery; when removing the battery, first turn off the radio. Then press the release latch and remove the battery pack from the transceiver.

Mounting antenna: Hold the antenna base and screw the antenna clockwise into the connector on the top of the radio until it is tight.

Mounting/removing the belt clip: Use two screws to lock the belt clip. Remove screws to remove belt clip.
