

# A NEW ERA OF SMOKE.

## MAGICFX® ECO2JET

A new era of smoke has begun! The new ECO2JET offers a perfect alternative to CO2JETS and CO2 gas bottles. The effect is as powerful as traditional CO2JETS. The effect does not depend on humidity; even on a sunny day, you'll get big white smoke clouds. Equipped with a specially designed nozzle and a built-in high-speed turbo fan, the ECO2JET can blast smoke clouds up to 12 meters! With only one fluid can, you can produce smoke clouds for 13 minutes, equivalent to 13 large CO2 gas bottles. Control it by DMX and create clouds of tomorrow.

### FEATURES.

- Special nozzle with built-in high-speed turbo fan (powerful effect of 12 m!)
- Up to 13 minutes of effect with a 5L fluid can. (equal to 13 large CO2 bottles)
- Consistent output, independent of humidity (indoor and outdoor).
- Fully rotating bracket available (to mount in a truss or as a floor stand, multiple angles possible).
- Lower noise effect, perfect for DJs and artists.  
(95 dB compared to 115 dB of CO2JETS)
- Quick connector for attachable tank or external fluid can.

NO CO2.

# FULL BLOWN BLAST OFF.

Unique due to its built-in high-speed turbo fan and nozzle, the ECO2JET delivers a consistently powerful, high and full effect, regardless of weather conditions, and as fast as a CO2JET.
