Flame retardant according to DIN 4102 B1 + M1 + EN13501-1.

## JACK THE GRIPPER

Our Jack the gripper is designed as a time saver when rolling out your stage skirting. Lift and turn Jack the gripper to unwind the roll of deco molton along the stage. How it works? Simply push the tool into the cardboard tube of the roll.

As soon as you lift the handle, the system clamps itself in the roll, lifting it off the ground allowing you to start rotating it along the stage.
