L700 series

- Up to 7,000lm white and colour light output
- 1.35 – 2.2:1 throw ratio
- 1.6x zoom
- 4K input support
- HDMI output
- Wi-Fi and Miracast across all models
- Super resolution, detail enhancement and auto gamma correction
- Edge blending & EPPT support
- Built-in media player – with network content upload
- Supports ELPWP10 – Epson Wireless Presentation System

Short throw models:

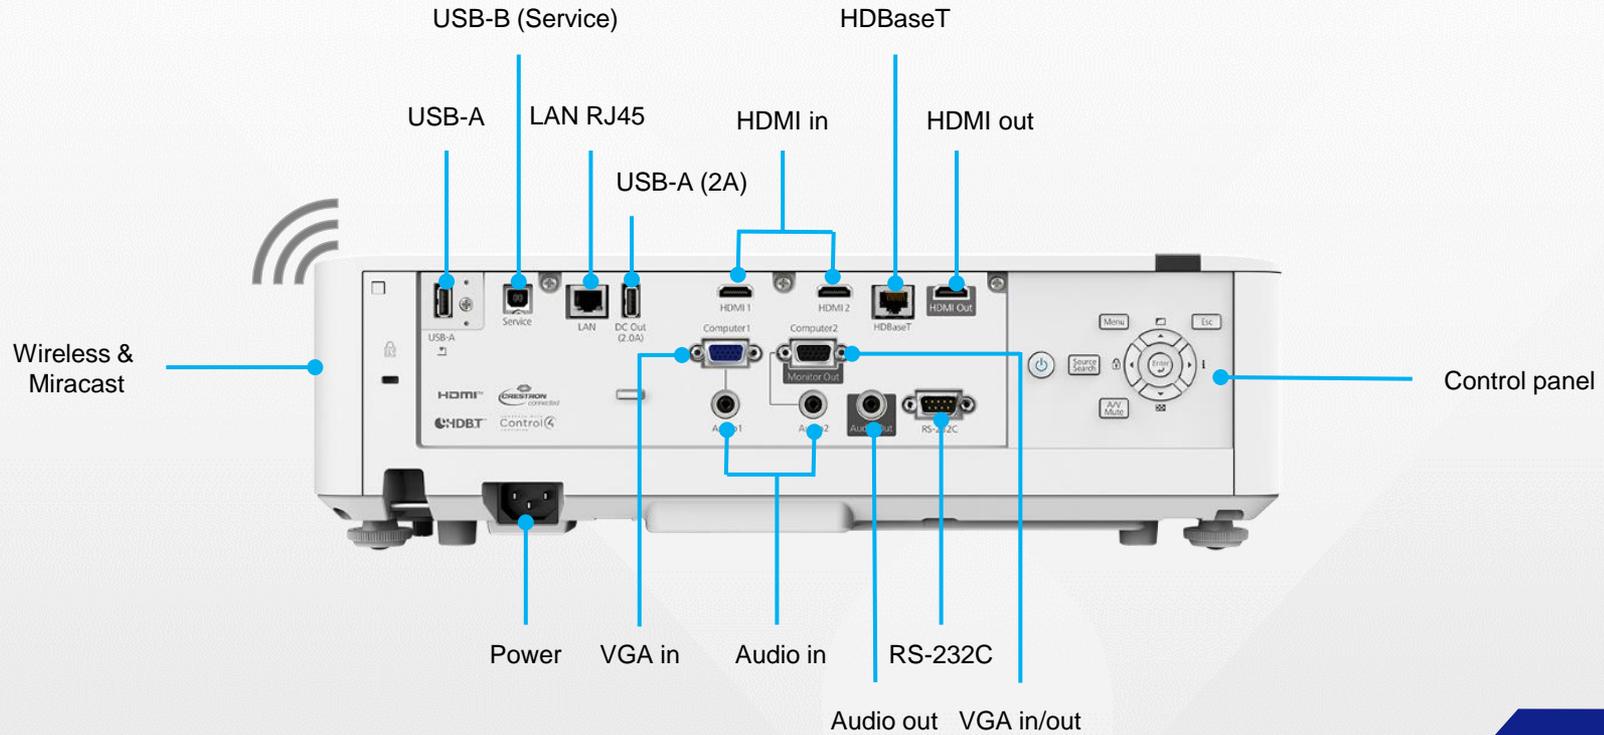

- 6,000lm white and colour light output
- 0.8:1 throw ratio
- Wide lens shift
- 1.35x digital zoom

Specifications vary by lens. Lens not included.

Connectivity

Model shown is EB-PU2010W

*SDI in/out is only available on PU2010 models

Key Features

Brightness in a Compact and Lightweight Chassis

6,000lm, 7,000lm, 8,500lm and 10,000lm models

External Camera Module

Enable assistance for stacking, tiling and colour calibration

NFC and Configuration App

Easily configure a projector fleet for multi-projector installs

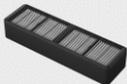

Wide Range of Optional Lenses

Uses Epson's existing lens range, including UST lens

EPPT support

Advanced geometric control and multi-projector management

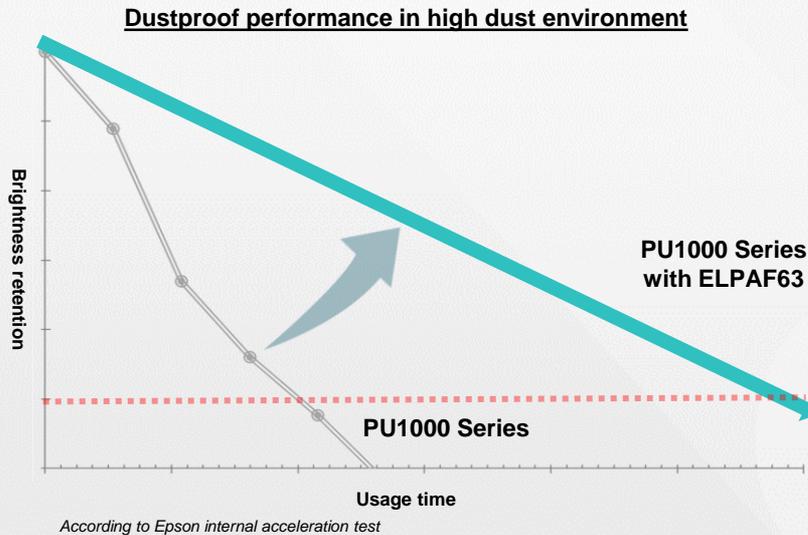

External Air Filter

Extend maintenance cycle

ELPAF63 – External Air Filter

Extend the PU1000 Series maintenance cycle, even in high dust environments with the ELPAF63 External Air Filter

- ✓ Provides the same level of dust protection as a sealed optical engine
- ✓ Designed for high-dust environments

EB-PU2200 Series

The world's **smallest** 20,000lm projector¹

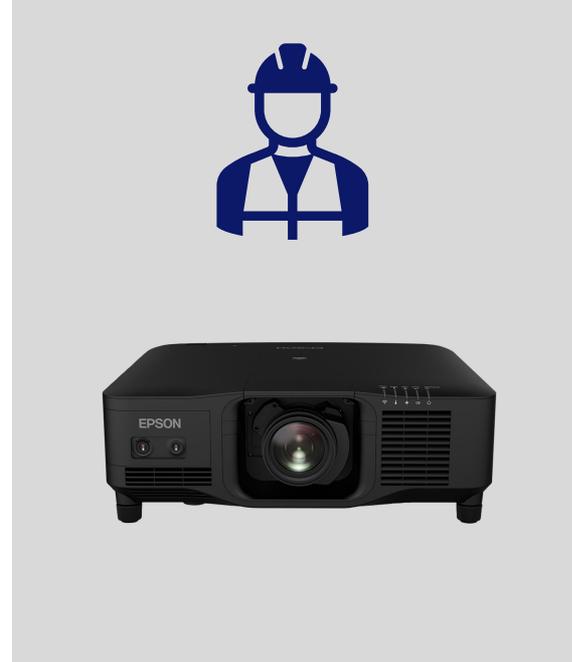

60% smaller than
previous model size

1. As of January 2022. Main unit without lens. 20,000lm in accordance with ISO 21118.

The world's **lightest** 20,000lm projector¹

Two person lift to one person lift

¹ As of January 2022. Main unit without lens. 20,000lm in accordance with ISO 21118.

Basic specification

Model name	PU2220B	PU2216B	PU2213B	PU2120W	PU2116W	PU2113W
Light source	Laser					
Body colour	Black			White		
Resolution	WXUGA					
Brightness (lumens)	20,000	16,000	13,000	20,000	16,000	13,000
Panel size (inch)	1.0					
Dynamic contrast	Over 2,500,000:1					
Native contrast	Reference value 2,000:1					
Mechanical shutter	Yes			N/A		
4K Enhancement	Yes					
Weight (excl. lens) kg	Approx. 24.4	Approx. 24.2	Approx. 23.7	Approx. 24.4	Approx. 24.3	Approx. 23.8
Dimension (mm) Exclude feet (W x H x D)	586 x 185 x 492					
SDI (3G) Input	Yes			N/A		
SDI (3G) Output	Yes			N/A		
NFC tag	Yes					
Simple stacking	Yes*					
Filter maintenance cycle	Filter-less					
Power Consumption (Normal/Eco)	1301W / 899W	1083W / 773W	864W / 633W	1301W / 899W	1083W / 773W	864W / 633W
Fan noise (Normal/Eco/Quiet)	45 dB/37 dB	38 dB/34 dB	34 dB/29 dB	45 dB/37 dB	38 dB/34 dB	34 dB/29 dB

*Regarding simple stacking, optional camera (ELPEC01) is required for PU2220B Series.

Easy installation due to smaller size and lighter weight

Same brightness but **-60% smaller and -50% lighter** vs L20000U

Our journey to miniaturisation

Liquid cooling system

Simplified for efficiency

- Unique Epson LCD panel liquid cooling structure¹
- Improved cooling efficiency, allowing reduced product size unit despite having a larger radiator than the L20000U

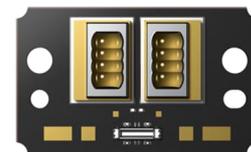

¹Only for 20Klm/16Klm model.

4-in-1 laser

3x brighter at the same size compared with previous laser bank

Therefore, LSM is **60% smaller**

Customer benefits

Save labour cost

PU2220B (24.4kg)
can be carried alone*.

*25kg can be carried alone:

<https://www.beckettandco.co.uk/manual-handling-faq-weight/>

Save delivery cost

Save warehouse space

Barco G100 W22

Epson PU2200B

24.4kg

Barco G100 W22

0.79m²

Epson PU2200B

0.56m²

*Square metre was calculated by multiplying the depth and width.

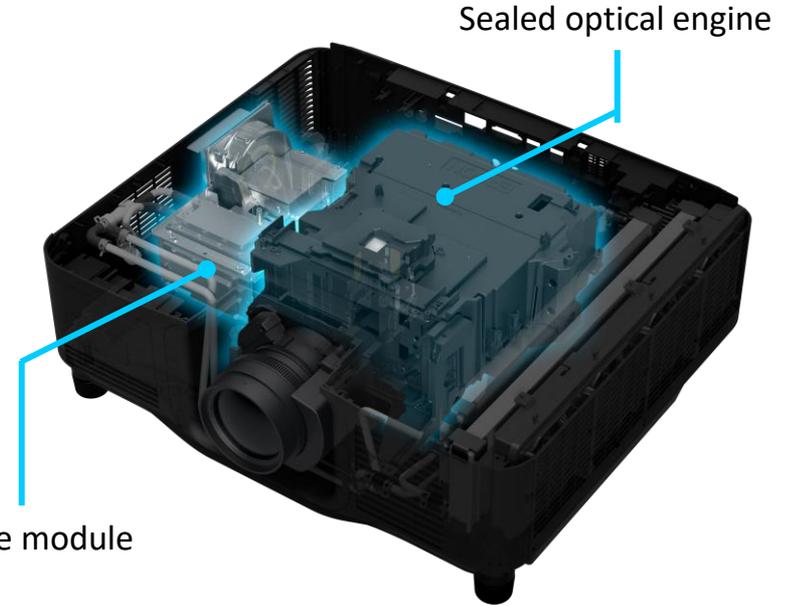

Reliable dust proofing

IP5X certified dust resistance

High durability with **IP5X certified**¹ optical engine and laser light source module

Epson's **most advanced** dustproof design

Specialised silicon seals reduce dust infiltration by up to **80%**²

¹IP5X certified Optical Engine and Laser Light Source Module in accordance with IEC standard 60529 for outstanding dust resistance.

²Dust on the lens compared to EB-L20000U.

Fleet utilisation

Versatile projector fleet stacking solution

Use ELPEC01 camera and EPPT software to stack and control multiple projectors

PT-RZ31K

Total Height: 1305mm*

Total Weight: 195Kg*

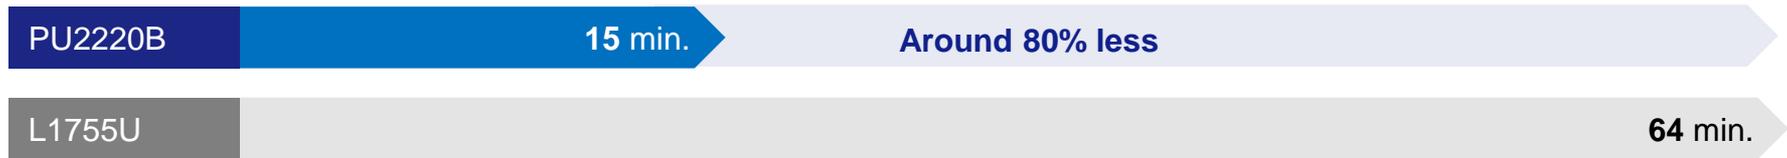

*Weights and heights are based on publicly available frame and projector data

Efficient serviceability

Improved disassembly and assembly process

	Steps to remove optical engine unit	Screw type	The number of screw	The number of cable
PU2220B	3 steps	3 type	42	14
L1775U	13 steps	8 type	79	63
Gap	-10 steps	-5 type	50% less	80% less

Required time to disassemble and assemble

Condition

This time does not include trouble shooting and adjustment after exchanged units.

This time is calculated based on actual service time by MOST methods but does not include lost time.

This time is an estimate, please refer to the official service manual.

ALL CONTENT IS COMPANY CONFIDENTIAL

EPSON[®]
EXCEED YOUR VISION

Improved maintainability

Filterless structure

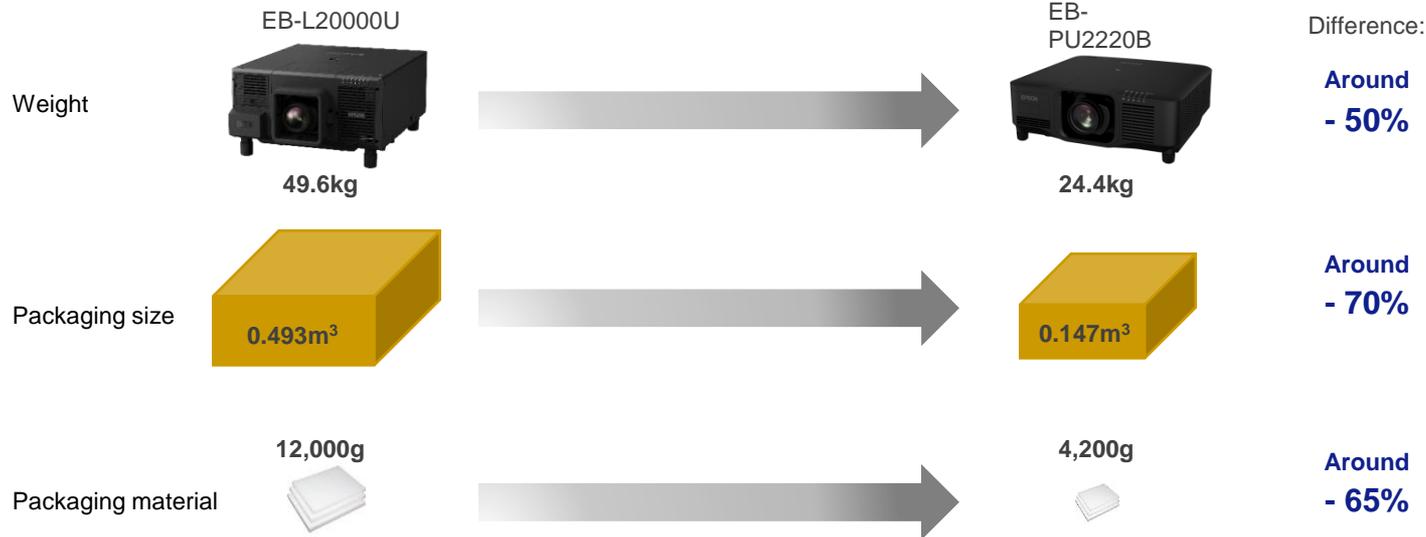

- Hassle-free maintenance
- Custom-designed seal mechanisms
- Coated circuit boards and power supply
- IP5X certified components¹

¹IP5X certified Optical Engine and Laser Light Source Module in accordance with IEC standard 60529 for outstanding dust resistance.

Compact and light design minimises resources

- Due to its size and weight, we have reduced the amount of resources needed: miniaturisation of the packaging size and the reduction of the plastic cushioning material
- We develop products with less environmental impact while maintaining powerful performance

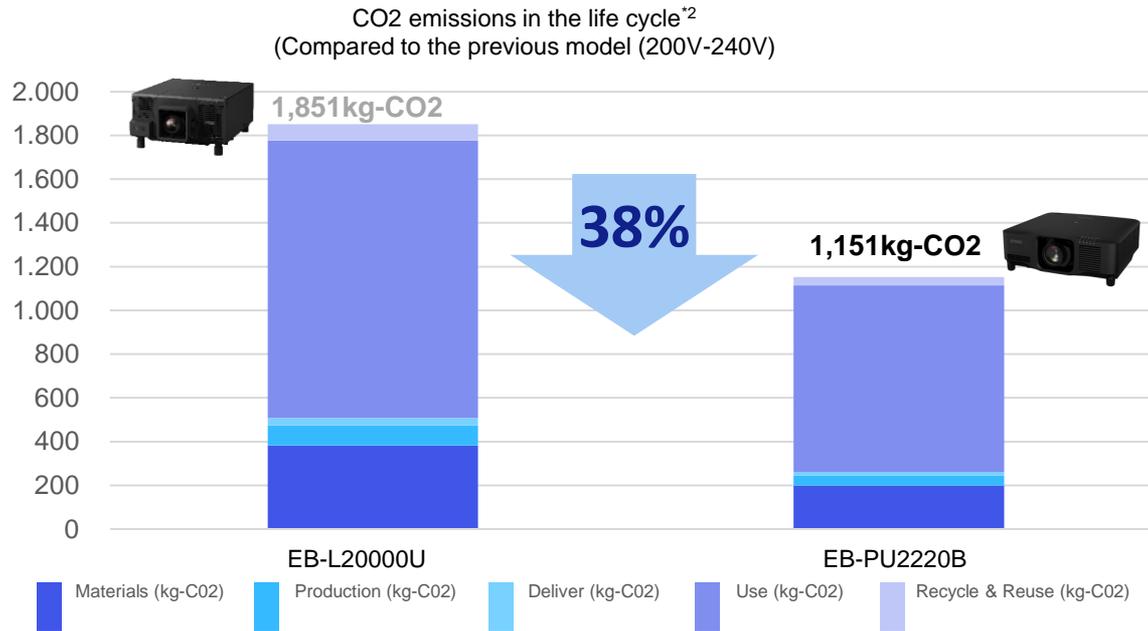

*20,000lm models

ALL CONTENT IS COMPANY CONFIDENTIAL

Reduced CO2 emissions in the life cycle by 38%

- The PU2220B achieves a reduction in power consumption thanks to the high-efficiency 4-in-1 laser light source
- Reduced CO2 emissions at stage of use by 33%

*2 Epson conducts life cycle assessments to quantify the environmental in the product life cycle. The conditions of usage stage are 3.5 hours per day, 100 days per year, and 5 years of use. Annual CO2 emissions are calculated using the EPSONburden LCA unit index (0.416kg CO2 / kWh).

Lenses

EPSON[®]
EXCEED YOUR VISION

Lenses

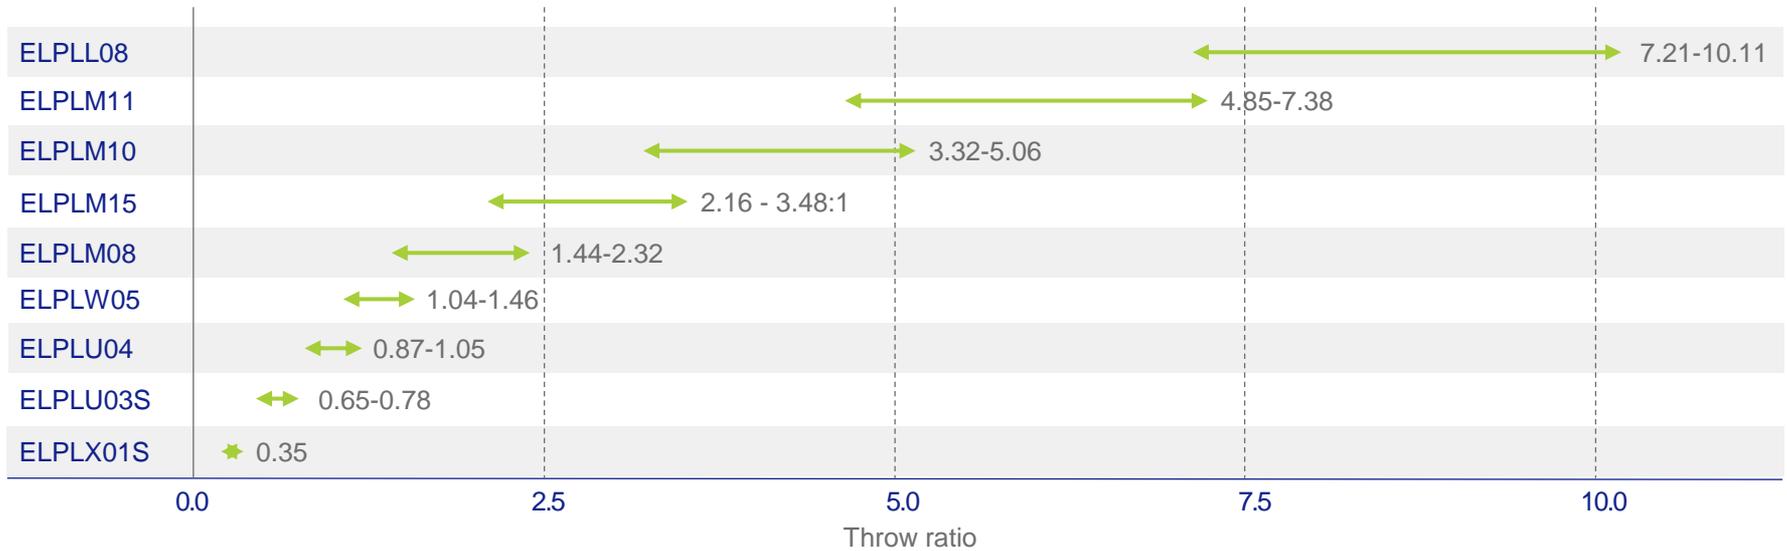

- ✓ save money,
- ✓ save storage space,
- ✓ simpler to specify projects

Number of lenses required by each manufacturer to cover all available throw ratios for projectors ranging from 6Klm to 20Klm

Information correct as of January 2022

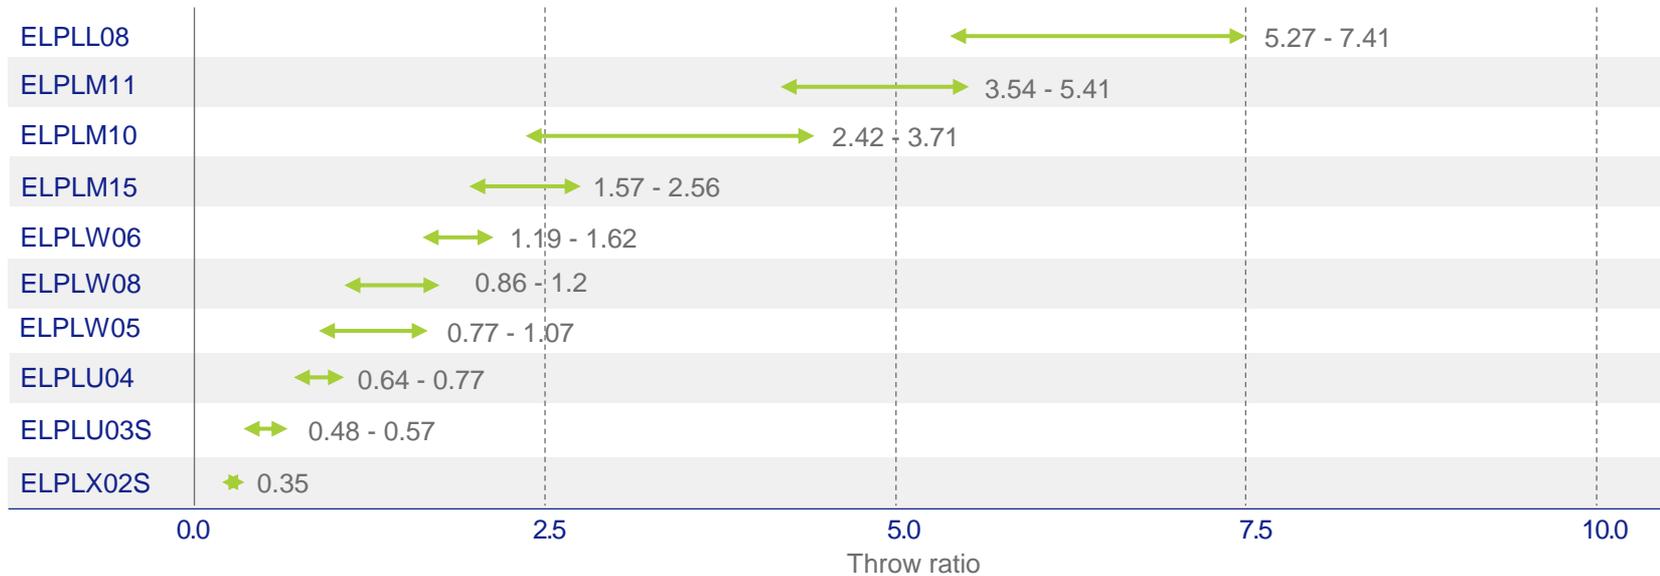

EB-PU1000 Series (PU1006, PU1007, PU1008)

- Lens Range : 0.35 – 10 :1
- Resolution: 4K
- Position Memories: Yes 10
- Focus: Centre and Border (distortion)

EB-PU2010 / PU2100 / PU2200 series

- Lens Range : 0.35 – 7.41 :1
- Resolution: 4K
- Position Memories: Yes 10
- Focus: Centre and Border (distortion)

ELPLW05 is limited to 12,000lm

Camera Assist

'Camera Assist' allow you to speed up multi projector installs by using the ELPEC01 external camera to perform complex multi projector installation tasks

What it can do...

Edge blending

Stacking

Simple Stacking

Color Calibration

Remote Access

The benefits to you...

No installation expertise required

Stack, blend and calibrate colours with ease

Reduced installation time

Plug-and-play functionality

Low cost solution for advanced installation features

ELPEC01 - External Camera

Optional camera module **ELPEC01**

Compatible with any interchangeable lens unit

Usable with UST lenses:

ELPLX01S, ELPLX02S – ELPLX03s

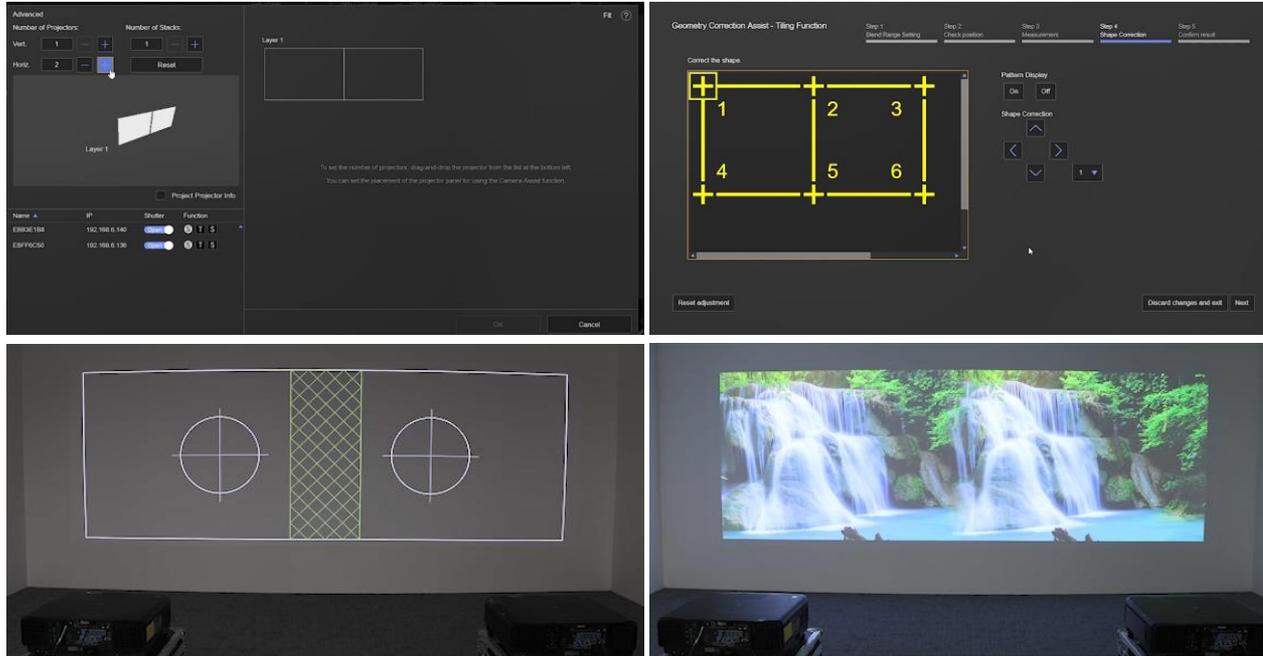

Mount:

***Internally** 13,000lm to 20,000lm*

***Externally:** 10,000lm and below*

Connection via USB to the projector

Geometry Assist: Tiling

Automatically correct onboard geometry for an edge blend installation

Up to 15 projectors using EPPT

Simple and intuitive GUI.

Up to 300" per projector

60% faster than manual tiling set up

Automatic Tiling

(PU series x ELPEC01 x EPPT)

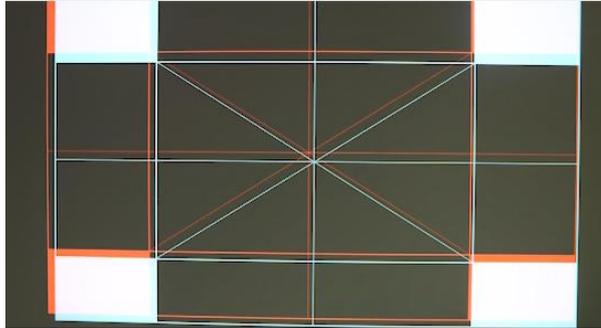

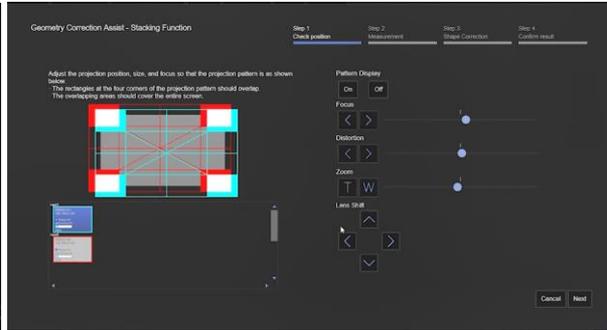

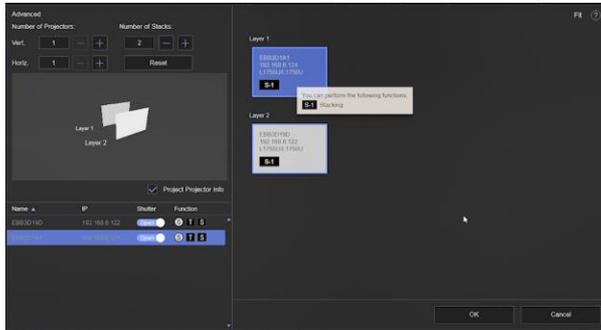

Manual Tiling

(PU series x Remote controller)

EPSON
EXCEED YOUR VISION

Geometry Assist: Stacking

Automatically adjust onboard geometry to create a brighter image

Offers quick & easy stacking - up to 6 units using EPPT

Simple and intuitive GUI.

No precise manual placement of the projectors required

70% faster than manual stacking set up

Automatic Tiling

(PU series x ELPEC01 x EPPT)

Manual Tiling

(PU series x Remote controller)

EPSON
EXCEED YOUR VISION

Simple Stacking

Double the projected image brightness **quickly** and **easily**

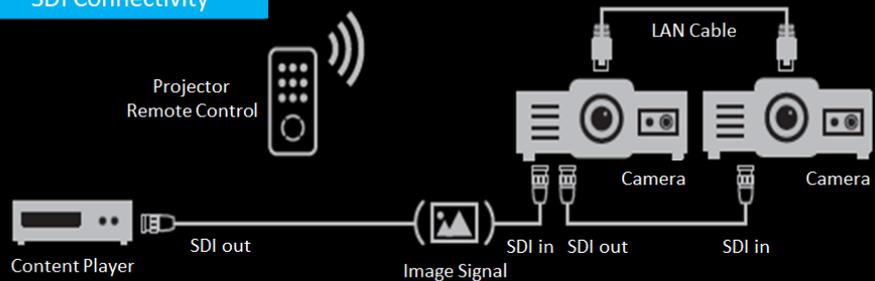

Requires only an **Epson camera**, **network cable** and **remote control**

Cross model compatibility - **Any Epson projector with a camera!**

Time to complete: **7 minutes**

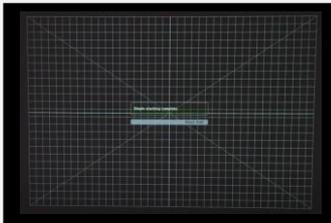

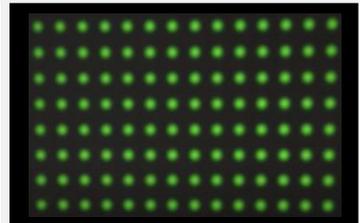

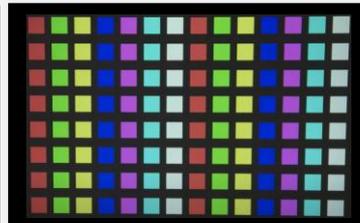

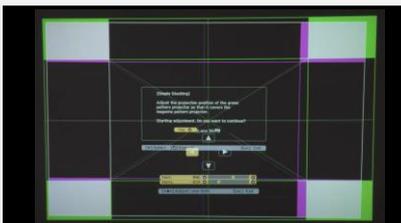

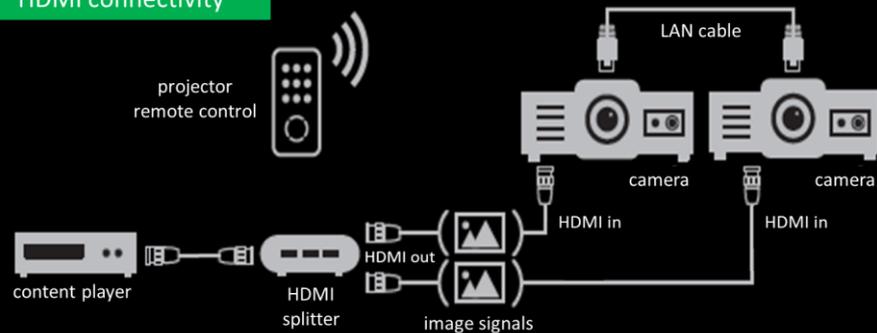

Simple Stacking Example

SDI Connectivity

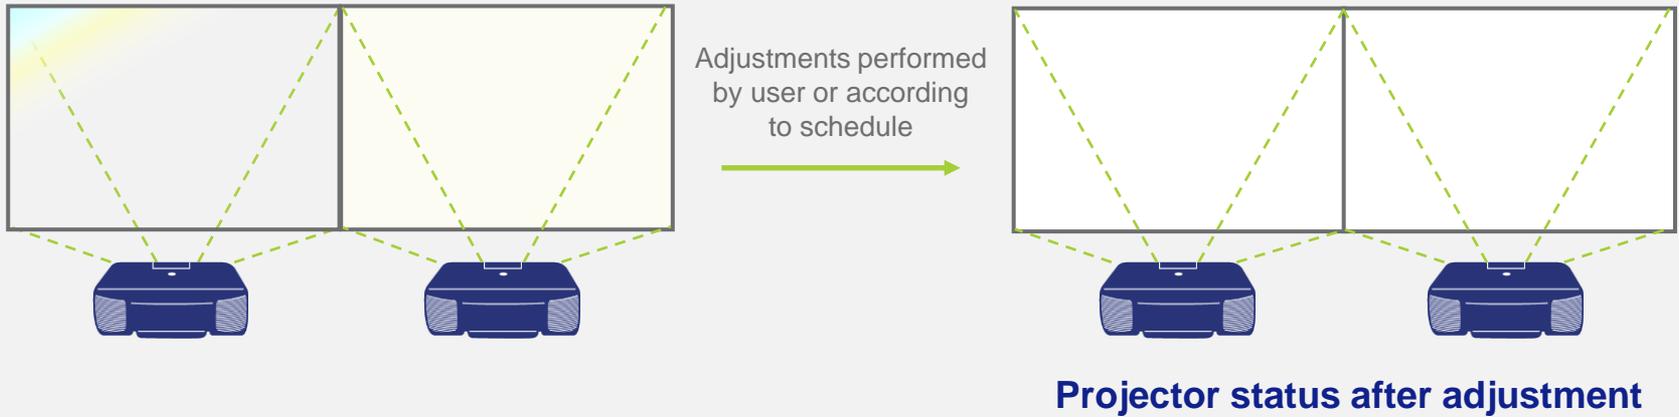

*SDI in/out is only available on PU2010 models

HDMI connectivity

Color Calibration

Adjusting image when using multiple projectors

Remote Camera Access

Monitor the projected image from a remote location

Site

Still image of the cameras view is captured

LAN

Control room

Accessed via projector web server.

Epson Projector Software

Blending and curved screens supported

Online: support.epson.europe.com/TDS

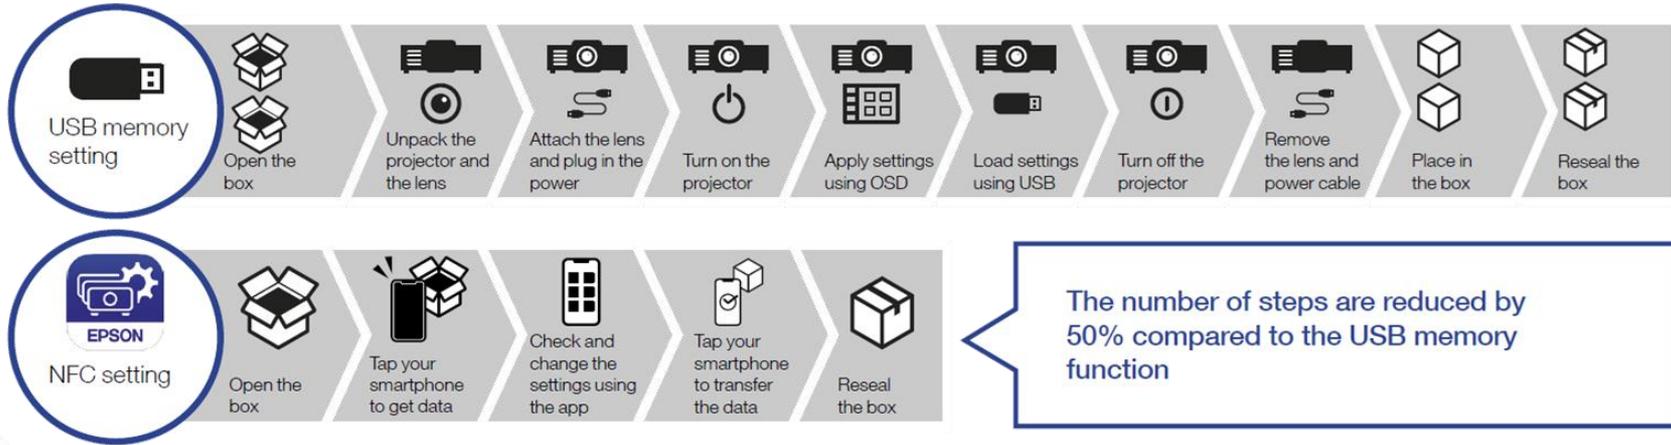

NFC – Epson Projector Config Tool

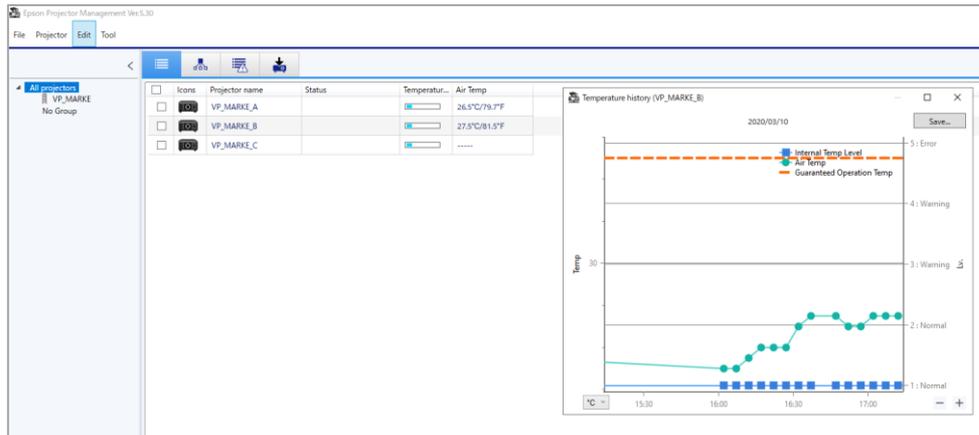

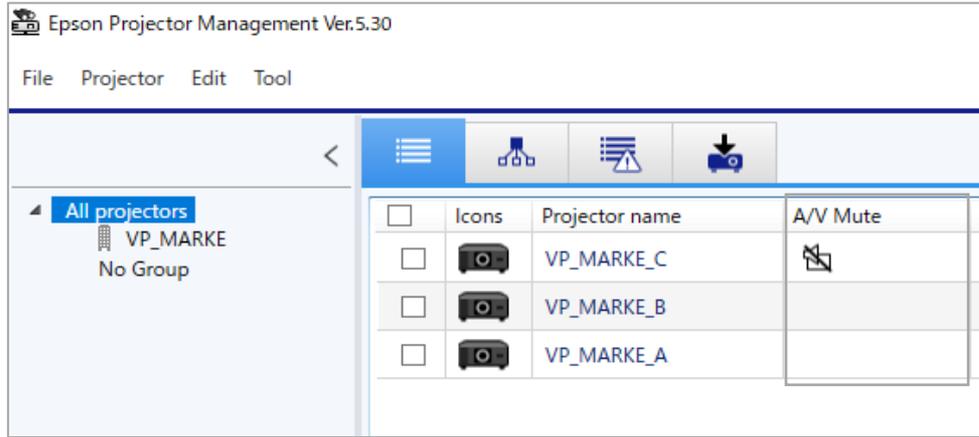

- New Epson Projector Config Tool app
- iOS and Android supported
- Manage up to 100 projectors
- Filter registered projectors by date/serial number/asset name, etc.
- Read/write data without powering on the projector
- Import/export settings file for editing/sharing
- Check projector status, read last error code
- Reduce multi-projector set up steps by half vs. USB memory function

NFC – Epson Projector Config Tool

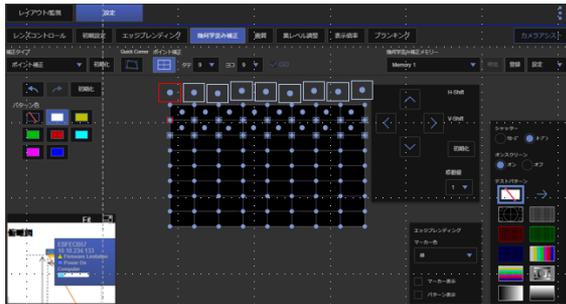

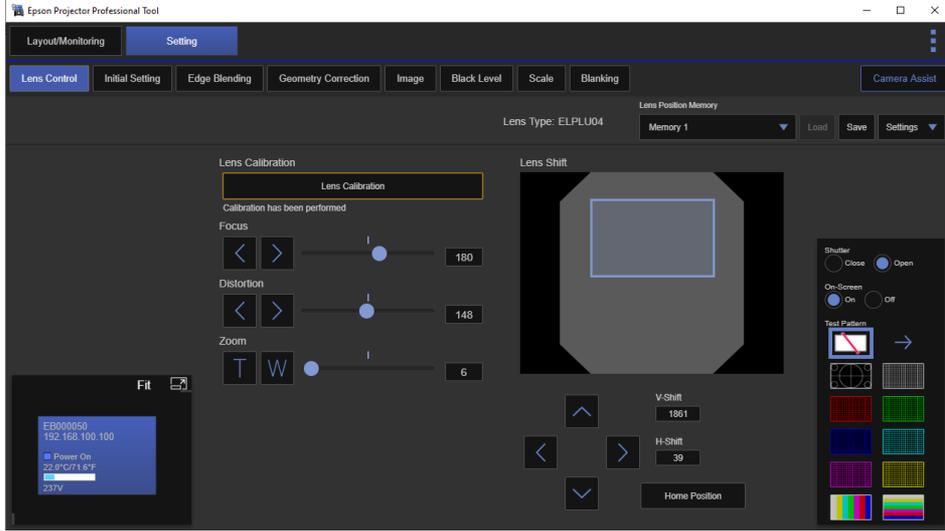

Epson Projector Management - EPM

Network Software for System Management

- Notification latest FW (internet connection required)
- Scheduled FW update up to 5 units contemporaneously
- Total control UP to 2000 units
- Remote diagnosis with live status and warning
- Warning notification via e-Mail
- Temperature monitoring
- Operation schedule – Week – Day - Hours
- PJ link compatible

Epson Projector Professional Tool - EPPT

- **Network Software for Efficient Setup of multiple projectors**
- Register 50 units per project
- Unlimited projects
- Camera assist function to automate edge blending, stacking, colour calibration and screen matching
- Manual colour calibration (including black level and geometric correction available)
- Basic projector control and monitoring
- Export geometry files in case of fault.

Epson Content Manager

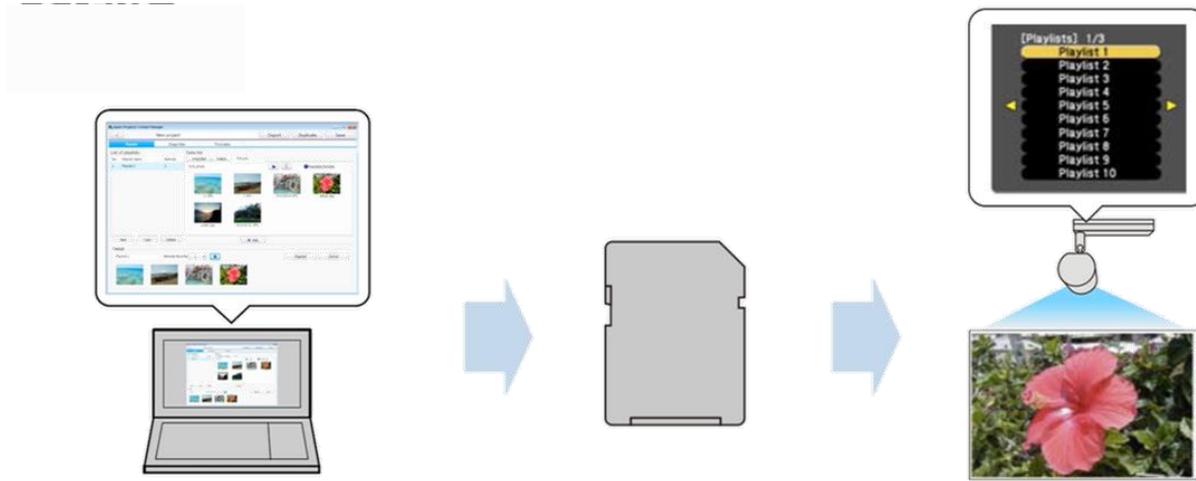

- **Software for Content Management**
- Dedicated to the internal advanced media player
- Format conversion
- Masking supported
- SD or USB stick production
- Play Sync on multiple units
- Operation schedule – Week – Day - Hours

Epson Content Manager

By using Content Manager, you can create signage playlists easily.

They only need an SD card or USB memory - no need for HDMI or other cables.

- **Add** images or movies to a playlist
- **Schedule** a playlist
- **Set** a custom shape filter

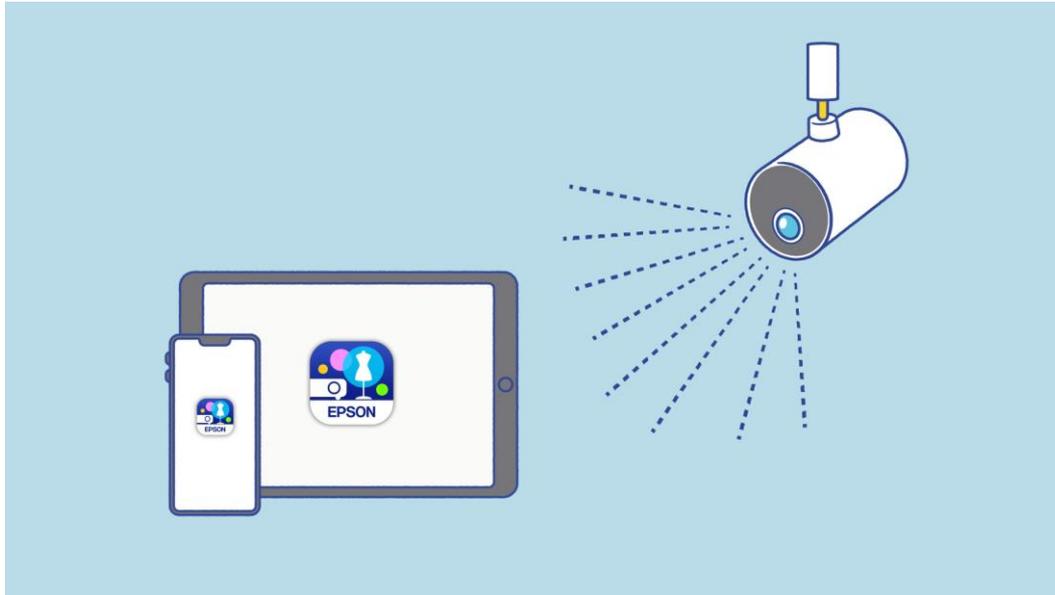

- **Save** to an SD card

- **Project** your playlist from the SD card

Network Upload allows you to upload new projects wirelessly, directly to the projector

Epson Creative Projection

- Create quick, easy and free custom content for signage projectors.
- Reduce content creation costs and provide dynamic, up-to-date content with ease.
- Designed for small retail or hospitality users with limited budget for signage content creation.

Control Protocols

Epson Projectors offer a variety of ways for external control including:-

PJLink	Used by many Japanese projector manufacturers, offers a universal protocol of projector control.
ESCP.net21	Epson's own internal control, can be sent via either RS-232C or LAN, details are available in the user manual downloadable from the Epson website.
Art-net	Used to control Epson projectors from devices such a lighting desk used in theatre / live events.
Web API	Developed to allow users to create web based monitoring systems, allows control of projectors via specified Web API commands, also supports ESCVP.net.
Crestron Roomview/AMX Device Discovery	These are specific to the manufacturer and allow their control system to use their own internal standard communication protocols to control Epson projectors.

Specific Demonstrations of these control protocols are available on request

Thank you
