MICROPHONE STAND

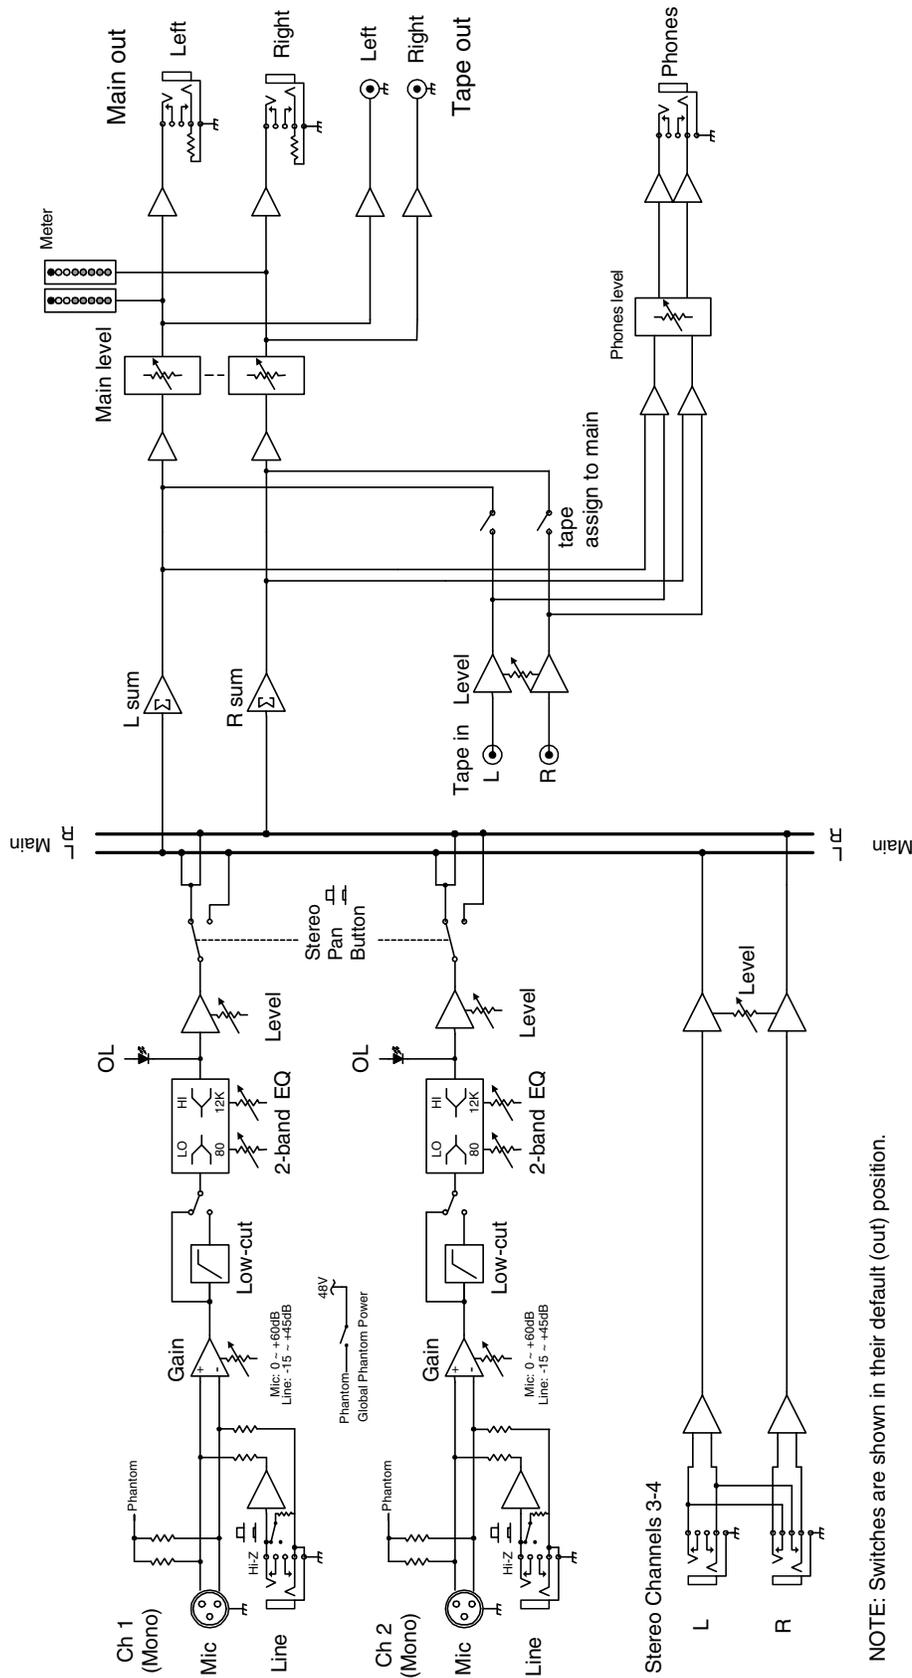

The bottom panel of the 402VLZ4 has three non-threaded holes that allow it to be fitted with an optional microphone stand adapter. This lets you support the mixer on a standard mic stand and adjust its height and level to whatever suits your preferences.

The Atlas AD-11B mic stand adapter is available at many music stores. It is made and distributed by Atlas Sound.

Use three self-tapping machine screws 6-32 x 1/4" long to secure the adapter to the bottom of the 402VLZ4.

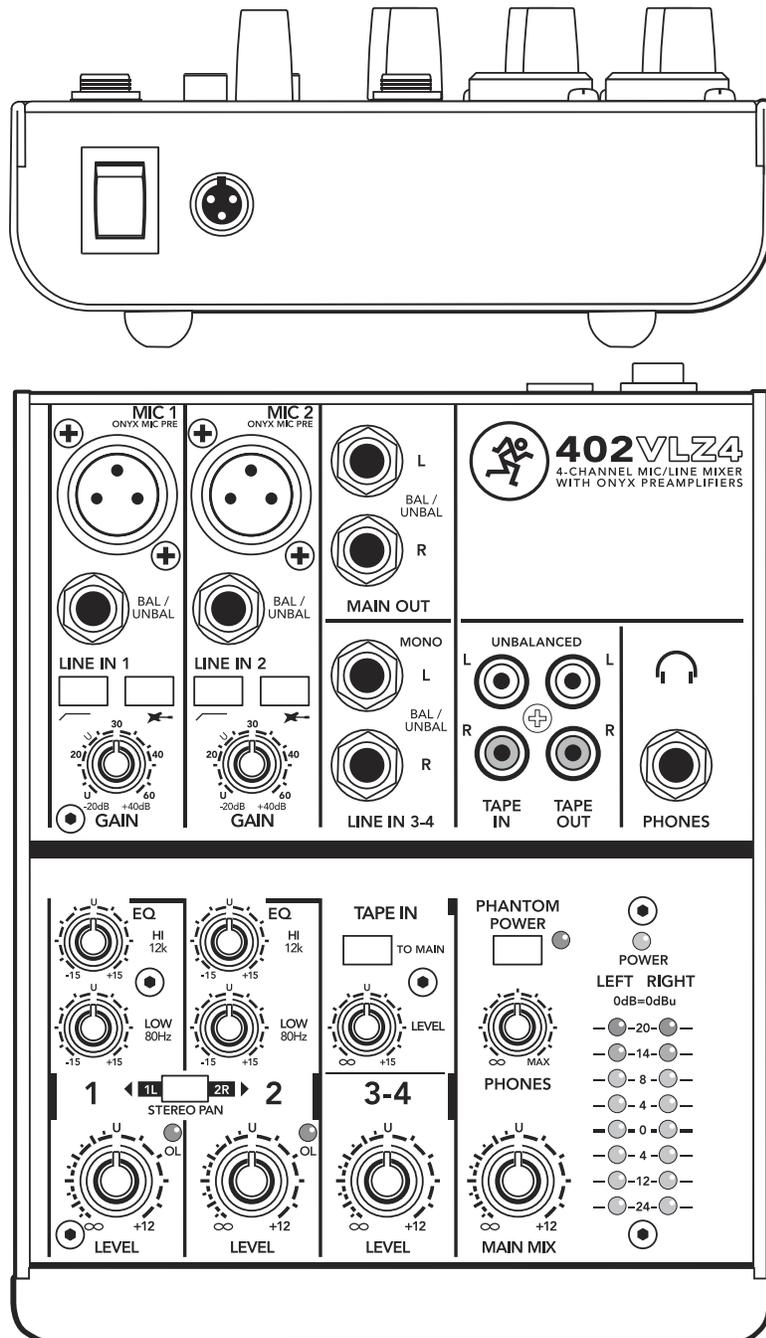

Do not use screws longer than 1/4" as these could damage the circuit boards. Do not use screws shorter than 1/4", or the adapter will not be securely fixed to the mixer.
