

S-80 ON-EAR BLUETOOTH HEADPHONES AND PERSONAL SPEAKER SYSTEM

Flip it. Switch it. Hear it.

PIDD 21 JUNE 2022 • 08:00 BST/09:00 CET
AVAILABLE AUGUST 2022

COLORS

Streamlined all-wireless headphones with vivid sound for on-ear listening and use as a personal speaker system.

Take it to the next level.

Primed with cutting-edge V-MODA innovations, S-80 combines sharp and stylish design with exceptional wireless sound and unmatched versatility. Look great everywhere you go with the sleek profile and interchangeable magnetic shields. And experience music however like in the moment, from on-ear listening to transforming S-80 into a personal speaker system that envelops your space with vibrant sound.

Streamlined style.

S-80 flows with your fashion and passion for music. The deftly engineered headband and ear cushions offer continuous comfort through all your activities, from moving about town to chilling at home. And with colorful magnetic shields and customization options, you can easily accessorize S-80 to match today's gear or mood.

Tuned for the new beat.

Carefully crafted to maximize the impact and energy of electronic music, S-80 delivers a big, tight, and aggressive sound experience without the bulk of full-size phones. Drive your daily groove with punchy low end, smooth midrange, and clear highs perfectly tuned for modern styles.

Total control.

Using the dedicated mobile editor app, you can shape S-80's response for your style and taste. Craft your own custom EQ curve, or call up one-touch presets for pop, hip-hop, and other genres.

EXPAND YOUR MUSIC SPACE

When you're enjoying a favorite song or discovering a great new track for the first time, drop the phones around your neck or place them on a table and invite friends to listen along. As soon as you flip the ear cups into position, smart internal circuitry automatically adjusts the EQ and volume for the optimum sound presentation.
