NEW FOR [MK3] RANGE

Made to Create

Take control of any music setup with Launchkey [MK3], Novation's inspirational range of MIDI controller keyboards.

Create and play with Ableton Live, and connect external MIDI gear with the five pin MIDI out.

Expand your musical vocabulary with newly added features including Fixed, Scale, and User Chord Modes and a powerful creative Arp.

Velocity-sensitive pads and keys provide expressive control over your software and your performance.

LAUNCHKEY

Features

Designed for Ableton Live – Immediate access to all the controls you need. Never lose ideas or happy accidents with the Capture MIDI function.

Create and play with feeling – Velocity-sensitive keyboard and 16 velocity-sensitive pads enable expressive and dynamic performance. Tweak instruments and effects to perfection using eight rotary encoders and (on 49- and 61-key models) nine 45mm faders.

Get creative with chords – Three chord modes (fixed, scale and user) let you trigger chords with one finger.

Never hit a wrong note – Scale modes transpose keys and pads to notes in the selected scale.

Get melodies moving – Powerful arpeggiator takes you to new melodic, harmonic and rhythmic places.

Control anything MIDI – Five-pin MIDI output works with any MIDI-compatible device.

Easy-to-read screen – 16x2 character screen lets you easily see the state of what you're controlling or selecting.

Make Launchkey your own – Four Custom Modes enable you to create unique control setups for any performance or studio rig, using Novation Components.

Choose from four model sizes – 25-, 37-, 49- and 61-key variants let you pick the perfect controller for your setup.

Make music immediately – Free software, including Ableton Live 10 Lite, virtual instruments, plugins and sample packs let you start creating straight away.

Included Software

Ableton Live Lite – Quickly organise and arrange your sounds and start making tracks with this staple electronic-music-making software.

Serato Sample LE – Slice, rearrange and manipulate samples in real time using Serato's legendary Pitch 'n' Time timestretching/pitchshifting algorithm.

Two months Splice Sounds membership – Offering millions of high-quality, royalty-free one-shots, loops, and presets, with new releases daily.

Spitfire Audio LABS-Expressive Strings – Made exclusively for Launchkey MK3 owners, Spitfire Audio have taken their world-class strings samples and created an instantly playable, highly reactive instrument, designed to spark your creativity.

XLN Addictive Keys – Access one of four virtual keyboards when you register your first piece of Novation or Focusrite hardware.

Klevgrand R0Verb and DAW Cassette – High quality reverb and tape deck emulation plug-ins, to add some space or take your sound back to the golden age of cassette tapes.

AAS Session Bundle – Three synths for music makers, providing staple sounds for your tracks.

Sound Collective – Bringing Novation hardware owners a new free plug-in every couple of months.
