

Ortofon | Pro

General purpose model for scratch and back-cueing

Single
OM or Concorde cartridge

Twin Case
Two Concorde cartridges

Set Case
Concorde cartridge + extra stylus

Pro Characteristics

PRO

Great performance and durability as to basic scratch and back-cueing is what the Pro is known for. It has a good quality spherical stylus, a rock-solid cantilever, and serves general purposes well. The Pro is the logical

alternative to the more expensive expert cartridges. It offers both reasonable output and high sound quality which is, in fact, all there is needed to entertain an audience. Ideal choice for talented, but less experienced DJs!

Spherical Stylus
Scratch

Frequency Response
20-18.000 Hz +3 / -2 dB

Tracking Force
4,0 g

Replacement Stylus
Pro

Output
5 mV

Available Versions
OM + Concorde

ruggedness that is a must for professional use. More than twenty years of experience in designing and manufacturing disc cartridges, and close contact with DJs, have resulted in several lines suitable for all tone-arms and all amplifiers.
