

# Take your collaboration experience to a new level.

## With the upgraded WiPG-1600W.

The **WiPG-1600W** is wePresent's upgraded model, bringing the latest additions to your wireless presentations. New features, together with the existing strong cross-platform capability promise to take your collaboration experience to a new level.

### UPGRADES:

- ✓ Supports wired & wireless connections
- ✓ On-screen annotation tools
- ✓ Virtual whiteboard
- ✓ 1-to-4 distribution
- ✓ USB document viewer/media player
- ✓ Power over Ethernet
- ✓ Video streaming

WiPG-1600W  
UPGRADED  
MODEL

An Award Winning Solution

## Top features of the upgraded **WiPG-1600W**

Supports wired & wireless connections  
Allows greater networking flexibility for IT integration, via LAN cable or WiFi.

On Screen Annotation  
Write, draw and annotate on screen using our active annotation overlay. When you're done, save the entire screen to a USB drive.

Virtual Whiteboard  
With one click, switch the presentation to a white/blackboard environment for quick annotations.

1 to Many Distribution  
Allow users to display their presentation simultaneously to multiple network-connected wePresents.

USB Media / Document Player  
Insert a USB token into your wePresent to open files, view documents and images, or play audio and video media.

Power over Ethernet  
Allows for more flexible device placement as no power adapter is required.

Video Streaming  
Avoids frozen screens and thus ensures seamless sharing.

# wePresent

Offering both wired and wireless connectivity and Power over Ethernet (Poe), the WiPG-1600W offers greater networking and installation flexibility.

The new on screen annotation and virtual whiteboard tools allow users to annotate on top of their presentations or switch to a whiteboard/blackboard setting to elaborate on ideas. To allow for faster presentations, WiPG-1600W offers a USB document viewer and media player. Simply plug a USB token into the model and present content and video directly from the token.

With cross platform compatibility and upgraded features, WiPG-1600W allows basic presentations to become interactive experiences.

The ideal solution for **classrooms** and small **huddle spaces**.
